

Riesling Huang

Partner

Name: Riesling Huang

Position: Partner

Office: Shanghai

Tel.: 86-21-3886 2174

E-mail: huangzixuan@jtn.com

Language: Mandarin, English

Practice Area: PRIVATE EQUITY AND VENTURE CAPITAL INVESTMENT, MARITIME, CROSS-BORDER DISPUTE RESOLUTION, SPECIAL ASSETS

Professional Experience

Mr. Huang frequently represents domestic and foreign clients in complex matters before major international arbitration institutions and courts. His practice is characterized by a blend of global perspective and local insight. He excels in handling challenging disputes involving cross-border debt recovery, maritime affairs, and the enforcement of foreign commercial judgments. Particularly in cases involving multi-jurisdictional legal conflicts, he utilizes precise procedural strategies to secure optimal global solutions for his clients.

Mr. Huang is at the forefront of legal services in the aviation sector, representing clients in both contentious and non-contentious matters involving civil aircraft, business jets, aircraft engines, and various aviation materials. He provides highly competitive legal support in complex cross-border leasing, purchase and sale negotiations, and asset disposal disputes.

In the realm of PE/VC, Mr. Huang is deeply involved in the capital operations of early-stage and growth-stage enterprises. In recent years, he has successfully assisted numerous startups in completing multiple rounds of equity financing, and he has been a key partner in helping these companies navigate their early stages and achieve sustainable, scalable development. Known for his "integrated litigation and non-litigation strategy," Mr. Huang assists clients in resolving corporate control disputes, shareholder qualification affirmations and various investment/financing conflicts. He is dedicated to helping clients achieve their desired outcomes at the lowest possible cost while maximizing the protection of their core business interests.

Representative Performance

• Special Assets

- Represented a Chinese aircraft owner in the delivery of the first Gulfstream G700 business jet in Asia.
- Represented multiple aircraft owners in the purchase and sale of multiple business jets.
- Represented a Chinese company in the sale of a Boeing 737-800 aircraft.
- Represented a client in an HKIAC arbitration involving multiple aircraft and aircraft engines, with English law as the applicable law. The case was eventually settled on terms highly favorable to the client.

• Maritime & Cross-Border Dispute Resolution

- Represented charterer in a dispute with a shipowner under TCT, and acted for the client throughout the LMAA arbitration proceedings. English law was the applicable law. The opponent party's claims were rejected by the tribunal while the client's counterclaim was supported by the tribunal in whole.
- Represented a major state-owned shipyard in China in London arbitration proceedings against a shipowner concerning a ship quality dispute. The case was subsequently referred to mediation, and we represented the client throughout the mediation process and achieved a satisfactory outcome. English law was the applicable law.
- Represented a major state-owned shipyard in China in Singapore arbitration proceedings against the buyer in connection with a dispute over a ship equipment sales contract. We acted for the client throughout the entire process, including pleading and evidence preparation and the hearing, and all arbitration claims were fully upheld. Singapore law was the applicable law.

- Represented a Hong Kong trader in a sales contract dispute with a Colombian buyer, and successfully assisted the client in full recovery of payment through various proceedings in Colombia.

- **Private Equity and Venture Capital**

- Assisted a private information security enterprise in completing a Pre-IPO financing of hundreds of millions of RMB.
- Assisted a private technology enterprise in completing aggregate financing of hundreds of millions of RMB, and assisted the client in establishing an internal compliance and risk control system.
- Supported a semiconductor inspection equipment company through multiple successful funding rounds.
- Successfully shielded a private enterprise from massive performance-based compensation liabilities.
